- CISCO Bootcamp Trinity International College

About Me

As a passionate and motivated student with a strong foundation in the MERN stack and web development, I am eager to kickstart my career in the tech industry. My coursework and personal projects have equipped me with proficiency in front-end and back-end technologies, including React, Node.js, and MongoDB.

Work Experience

Full Stack Intern   September - December 2023

WEBX Nepal

Key responsibilities:
- Build projects in MERN stack
- Used the React Material UI technology to create the front-end interface
- Use REST APIs to connect to an existing back-end
- Produce code that is both efficient , secure and maintainable
- Write modular, reusable and excellent quality code through TDD
- Code reviews and implementation of best practices.

Nodejs Intern   January - April 2024

Amnil Technologies

Key responsibilities:
- Built chatbots with Botpress, enhancing user engagement.
- Collaborated on backend development for multiple software projects.
- Designed and implemented RESTful APIs for seamless communication.
- Conducted code reviews and testing to ensure application quality.
- Troubleshooted and resolved technical issues promptly.
